

BLOOMING TULIPS

Holland, MI

Monday - May 4, 2026

Our Annual Springtime trip to Holland MI. The tulip began as early as 1055 AD. A single bloom was known as "Tulipan". Visit **Veldheer's Farms Tulip Fields**. Started in 1947 as a hobby with 100 red and 200 white tulips, now, it has grown to over five million tulips. Visit the **Delftware Factory**, the official Dutch pottery. They currently produce over 400 different items. **De Klomp Shoe Factory** too!

See how locks of poplar wood are carved down to the proper size and shape. Try on a pair and see how they feel. A **buffet Lunch** at a local restaurant. A visit to the **Holland Bowl Mill**. Watch the skilled artisans create handcrafted wooden bowls using traditional techniques passed down through generations. Experience the sights, sounds, smells and artistry behind every Holland Bowl Mill heirloom piece. A visit to **Windmill Island** with the 265-year-old **authentic DeZwaan Windmill**, the only authentic Dutch windmill operating in the United States. If you wish, take a guided tour of the mill with authentically costumed guides. From the fourth-floor deck, you can survey 36 acres of manicured gardens, dikes, and canals. Hear tunes from a working **street organ**-a gift from the city of Amsterdam after World War II. Don't forget to pick out your favorite Tulips and order from one of these stops and have them shipped to you in the fall just in time to plant. We'll have a Culver's Dinner stop on your own on the way home.
